Mr. Adze Brown,

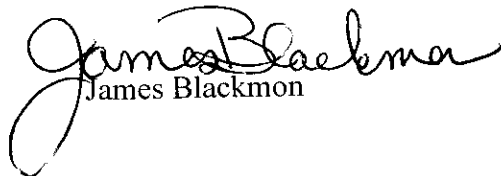

I would like to express my appreciation for the high quality of the work your team recently finished on our basement remodeling and various other tasks around our home. There were a wide variety of tasks and your team handled each one with ease. They kept the work site orderly and at the end of each day the area was cleaned and all items were put away to be ready for the next day. The pantry and closets you built in the basement are outstanding and exactly what we wanted. The bead board on the porch ceiling looks fantastic and upgrades the entire look and feel of the porch. Your team did a superb job on the replacement of the basement flooring - it looks great.

The Enterprise team placed our needs first. When an accident occurred that caused the water line for the refrigerator ice maker to flow water over a large area of the basement floor you came to our rescue. Even though it was not related to any of your work members of the Enterprise team arrived quickly to remove the water and minimize damage. This demonstrates your commitment to serving your customers and is greatly appreciated.

During the entire period your team exhibited professionalism and quality workmanship. I highly recommend Enterprise Contracting to anyone that needs home remodeling work completed from the very complex to the regular handyman tasks. In fact someone at my office recently asked for recommendations for a company to build a deck for his house. I gave him your office's phone number and your website with a strong recommendation that he use Enterprise Contracting.

Thanks again for the outstanding work you did for us. Do not be surprised if you hear from me again to complete some new tasks we need completed.

Sincerely,

James Blackmon
