Chantilly, VA 20151

Attn. Andy Riley

Dear Andy:

This letter is long overdue, but I wanted to thank you for your efforts on our remodeling projects over the years. We have used Enterprise Contracting for all of our remodeling projects (a total of five) since 1996, and have always been impressed with both the quality of your work and the professionalism of your staff.

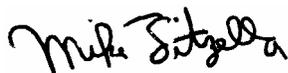

While most of our projects have primarily been functional upgrades to a forty year-old house, the ultimate is the screened porch and patio that we did in 2006/2007. We spent several months in the planning process, visiting your clients and gathering input from you, friends, and neighbors. You were extremely flexible when we decided to modify our initial plans to add a covered hot tub.

The result of our combined efforts is an addition that we are all very proud of. It has facilitated the hosting of large groups of family and friends, and provided an area where we can sit, relax, and enjoy our back yard. All of the time we spent in the planning process has really paid off.

There are bound to be problems during remodeling projects, and how those are handled by a contractor is very important. You recently repaired a mistake that had been made by one of your subcontractors in our bathroom, over a year after the project was completed, and at no cost to us. This proves the claim on your web site that you personally stand behind every job that you do.

We are truly satisfied with all of the work that Enterprise Contracting has done for us, and we wouldn't consider anyone else for future projects. Please feel free to use Mary and me as references if necessary. We can be reached at 703-281-4182.

Regards,
