Dear Andy,

As my basement remodel comes to a close, I wanted to let you know how great George has been overseeing the project. He has kept me updated almost daily on progress. He has taken every concern or call out I had and relayed it immediately to get it corrected. He even has had to come out or send someone out outside of work hours to fix power issues! George topped it off when he made friends with my puppy and ensured that all the workers were sensitive to the fact that there was a puppy in the house. This experience has been a true pleasure! Thank you!

Sincerely,

Danisha Krause
