

We have been using Enterprise for a number of years and are very satisfied with the service and quality of the work that they do.

Over the past 18 months we have used them for a variety of improvements to our home. The work ranged from interior renovations- updating and renovating 3 bathrooms to installing crown moldings in several rooms to repainting the entire inside of the house. Since our home was over 20 years old we decided to replace all of the windows and doors-front and rear sliding doors with more energy efficient units. In addition we replaced the double garage doors with new energy efficient models.

Again and again we found their prices competitive and their service was exceptional. Work was completed timely and within budget.

Last year we arranged for them to finish the basement of my son's home and again a reasonable price and high quality job done on schedule and on budget.

Having been a homeowner of various homes over 40 years I can say that of all the contractors that I have used over the years, Enterprise rates right there at the top.

I would highly recommend them for any time of home improvements and repairs.
