## **Recommendation for Rex Foster, Enterprise Contracting**

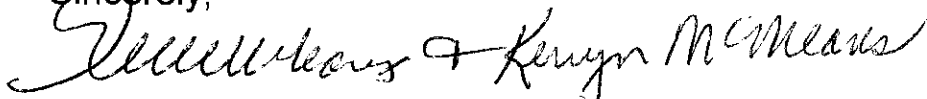

We are writing to commend Rex Foster for the fine job that he did as Sight Supervisor for Enterprise Contracting during our home improvement project which included an addition to our master bedroom and master bathroom as well as the remodeling of our master bathroom. Rex was promoted to this job after the project had begun after the original supervisor left the company. He made the transition well and diligently brought himself "up to speed" concerning the aspects of the project. Throughout, he did a super job of coordinating the work and ensuring the quality of it. He was consistently available for questions, comments and requests and quick to respond.

Of special note, we traveled for two weeks during the height of the construction and when we got home were delighted to find that just what Rex promised had been accomplished. The home and work areas were clean and the quality of work was excellent. These standards were upheld throughout the completion of the project

We are so very pleased with the finished product. It was a pleasure to work with Rex. He was always accessible, easy to communicate with and consistently followed through providing a high quality product. He is a delightful gentleman and he knows his stuff.

We would highly recommend him to anyone considering a construction project.

Sincerely,
