Dear Andy and The Enterprise Team:

Thank you for our marvelous gourmet kitchen. This was our first experience with such an extensive remodel in a home. Your design ideas incorporated our living style, unique taste, and sophisticated practicality. Although the job took longer than we originally anticipated, the finished product is extremely beautiful and functional. From tearing out part of a wall, to special order cabinetry glass and granite, to hand-made tiles; the kitchen is exquisite. Adze and Rex were terrific leaders and problem solvers. The crews were professional, respectful, trustworthy, clean, and knowledgeable. We'd like to give special mention to Nelson and his crew (flooring and tile), Omar and his crew (cabinetry), Thomas and Anna and crews (electrical and painting), and "Babazia" (HVAC). Pamela helped us pick out great designs and explained things that we were unsure of; Stephanie kept us current with our budget and helped with the lines of communication. We have received many compliments from family, neighbors, and friends -- a few who have asked for your phone number, which we were happy to share.

Sincerely,

Mark and Brenda Moore
